Deep Groove & Miniature Ball Bearing

COMPANY

About Us

From small and large motors to car axles to electric fans, quadcopter and hard disc drives (HDDs), ball bearings are used in a wide array of machines for rotary motion. Ball bearings support rotary parts and reduce friction to facilitate the smooth operation of machines. The size of ball bearings can range from smaller than a grain of rice, small enough to fit inside a wristwatch to over one meter in diameter for factory and power plant applications.

Our Anti-Friction Deep Groove Ball Bearings deliver reliable performance in a wide

range of applications and conditions. With super-finished raceways and controlled geometries, our premium design helps ensure consistent quality. Our product line includes Z2V2 quality Ball Bearings forged using SAE52100 Chrome Steel Alloy.

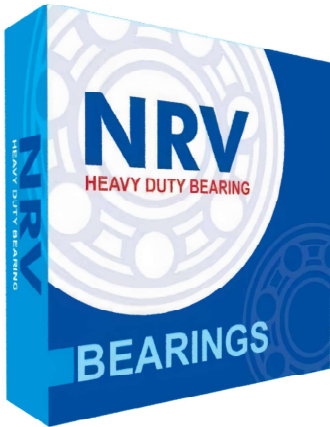

Whether it's conveyor or drive technology, mechanical and plant Engineering, pumps and compressors, automotive and agricultural technology, or the sports and leisure sectors, our perfectly engineered, high-quality anti-friction bearings are applicable to all industries around the globe.

APPLICATIONS

Most Common Uses

DAILY-LIFE	~ Household appliances Air conditioners, Fans & blowers, Vacuum cleaners, Washing machines, Floor polishers, Kitchen appliances ~ Office equipments ~ Electric motors ~ Pumps ~ DIY power tools ~ Garden power tools ~ Exercise and sports equipments
INDUSTRIAL	~ Industrial Machineries Textile machineries, Medical machineries, Printing machineries, Pulp & Paper, Plastic & Rubber, Tough Machineries ~ Gearboxes and reducers ~ Industrial power tools ~ Industrial electric motors ~ Industrial pumps ~ Compressors ~ Conveyors ~ Escalators & Elevators
AUTOMOTIVE	~ Heavy vehicles Trucks & Buses, Agriculture machines, Construction vehicles, Material handling vehicles ~ Motorcycles Crankshaft, Mainshaft, Transmission, Steering, Wheels

WHY CHOOSE NRV BEARINGS?

Technical Specification

- 

Z2V2 QUALITY

Prime material selection & advance manufacturing techniques ensures lower noise and vibration of NRV bearings during use.
- 

UPTO 1800 RPM

Our range of Anti-Friction Miniature and Deep Groove Ball Bearings offers smooth functioning up to 1800 RPM.
- 

SAE52100 CHROME STEEL

Our bearings are made of SAE52100 Bearing Steel which is one kind of special steel with features of high wear resistance and rolling fatigue strength.
- 

ENGINEERING SUPPORT

From on-call/on-site engineering support to expert application support, you can count on us to help you perform as smoothly and efficiently as possible.
- 

LOW NOISE

Our quiet running deep groove ball bearings significantly reduce noise levels and structural resonance in machines.
- 

DIMENSION GUARANTEE

Prime Material selection & advance manufacturing techniques ensure dimension accuracy and durability of our product.
- 

PERFORMANCE CULTURE

Our Performance culture is characterized by Strong Leaders, Empowered Employees, Continues Learning and an Openness to Change.
- 

EXCEPTIONAL CUSTOMER SERVICE

To us our customers comes first so when you choose NRV, you can look forward to the technical quality and end-to-end support of an established industry leader.

PRODUCT LINE

Miniature & Deep Groove Ball Bearings

MINIATURE BALL BEARINGS	VERSIONS
SERIES	SHIELD - One Side (Z) or Two Sided (ZZ) Metal Shield
600 / 620 / 630 / 680 / 690	SEAL - One Side (RS) or Two Sided (2RS) Rubber Seal
DEEP GROOVE BALL BEARING	OPEN - No Shield/Seal, Open Type Bearing
SERIES	
6000 6200 6300 6900 61000
